

ABSTRACT

The present invention is directed to a novel 4-sulfanylalkyl-3,5-dinitro benzyl alcohol compound and its preparation method, more specifically, derivatives of 4-sulfanylalkyl-3,5-dinitro benzyl alcohol compound having the following formula 1 and its preparation method:

wherein, R is hydrogen, alkyl group, or acetyl group, and n is an integer of 1 to 25. The organic compound of the present invention can be used as a material for molecular electronic device.
